■ Display All Bots test

Description Edit

This test will verify that the "See All Bots" button will display all bots used within the app.

Steps

- 1.Run Nodemon to connect the DuelDuo app to the server
- 2.Navigate to http://localhost:3000/
- 3.Click See All Bots button
- 4. Check if app displays all bots stored in Data.js

Test Postconditions:

Clicking See All Bots should create a static display card for all ten bots.
